# PHURBA SHERPA

**Frontend Developer**

📞 +977 980-679-7664    @ phurba1404@gmail.com    🔗 github.com/Phurba-Sherpa

📍 Pokhara, Nepal

## SUMMARY

Highly skilled software developer with ~2 years of experience designing, developing complex applications. Proficient in multiple programming languages, including Java, Java Script, and GO. Strong experience with full-stack web development and agile methodologies. Excellent problem-solving and analytical skills, with a keen eye for detail.

Passionate about staying up-to-date with the latest technologies and trends in the industry. Seeking a challenging role to leverage my skills and contribute to the success of a dynamic software development team.

**83** / 100

## EXPERIENCE

### Internship

**Asarfi - A fintech company**

📅 03/2022 - 06/2022    📍 Pokhara, Nepal

Asarfi is a startup that aims to provide the digital solutions to the banks and fintechs.

- Worked as a backend developer, was responsible for designing RESTful apis and was involved in writing a scalable and maintainable code.
- Technology included GOLang, liquibase, PGSQL, SQLC in Gin Framework.
- Overall, had a steep learning curve, was exposed to professional working environment. One of the great learning phase of my life.

### Full Stack Developer

**Wow Finstack Nepalc- A fintech company**

📅 06/2022 - Present    📍 Pokhara, Nepal

Wow Finstack, a Complete & Modular Enterprise-Grade Technology Stack For Banks, FinTechs and SMEs

- For 4 months Worked on Core part of CMS using pure Java as backend developer. Was responsible for processing transaction message. Had to go through the existing project and fix if any bugs occur and make sure that code flow in fine tuned. Learned about socket connection and transactional flow.
- Currently working as a Jr. Frontend developer in CMS portal, over the years, I have had involved in 2 frontend projects, CMS portal and Multi-currency wallet using react js, tailwind css and bootstrap.
- Overall, I have had worked on backend from designing apis to building the frontend that makes use of apis to communicate with database.

## SKILLS
